

Sources/Experiments
/SunRandomFolderGenerator
/SUNRandomFolderGenerator.hpp

```
graph BT; A["Sources/Experiments  
/SunRandomFolderGenerator  
/main.cpp"] --> C["Sources/Experiments  
/SunRandomFolderGenerator  
/SUNRandomFolderGenerator.hpp"]; B["Sources/Experiments  
/SunRandomFolderGenerator  
/SUNRandomFolderGenerator.cpp"] --> C;
```

The diagram illustrates a C++ project structure. At the top is a header file box (shaded gray) containing 'Sources/Experiments', '/SunRandomFolderGenerator', and '/SUNRandomFolderGenerator.hpp'. Below it are two source file boxes (white). The left box contains 'Sources/Experiments', '/SunRandomFolderGenerator', and '/main.cpp'. The right box contains 'Sources/Experiments', '/SunRandomFolderGenerator', and '/SUNRandomFolderGenerator.cpp'. Two blue arrows point from the source files up to the header file, indicating that both source files include the header.

Sources/Experiments
/SunRandomFolderGenerator
/main.cpp
