

Structure

```
classDiagram
    class Structure {
    }
    class compute_modularity_Bt["compute_modularity.Bt"] {
        - _fields_
    }
    compute_modularity_Bt --|> Structure
```

The diagram illustrates a class hierarchy. At the top is a class named 'Structure', represented by a white box with a black border and two horizontal internal lines. Below it is a class named 'compute_modularity.Bt', represented by a gray box with a black border and two horizontal internal lines. A blue arrow with a hollow triangular head points from the 'compute_modularity.Bt' class to the 'Structure' class, indicating that 'compute_modularity.Bt' inherits from 'Structure'. The 'compute_modularity.Bt' class contains a single attribute named '- _fields_' in its middle section.

compute_modularity.Bt

- _fields_
